Operations Guide

1	Fidelia Helix™ Overview	
1.1	Introduction	3
1.2	Helix Architecture	5
	<i>Smart Data Management</i>	5
1.3	Helix Terms	5
2	Installation and Upgrade Guide	
2.1	Supported Platforms	7
2.2	Recommended Hardware	7
	<i>Disk Space Requirements</i>	8
	<i>Additional Software Requirements</i>	8
2.3	System Performance Tuning	8
	2.3.1 Increasing Java Memory (JVM) Size	9
	2.3.2 System Security Issues	10
2.4	First-time Installation	10
	2.4.1 Planning Checklist	11
	2.4.2 Linux & Solaris Installations	12
	2.4.3 Windows Installation	13
2.5	Upgrading From Previous Versions	13
2.6	Quick Start	14
2.7	What Next	16
	<i>Scheduled tasks (cron jobs)</i>	16
3	Configuration and Operations	
3.1	Overview	19
3.2	Installing A New License Key	19
3.3	Starting/Stopping Helix	20
	3.3.1 Starting the system	21
	3.3.2 Stopping the system	21
	3.3.3 Verifying proper operation	21
3.4	Configuration Files	22
	3.4.1 Application installation path	22

- 3.4.2 Logging configuration 23
- 3.4.3 Web application external help 24
- 3.4.4 DGE controller port/password 25
- 3.4.5 E-mail servers 25
- 3.4.6 Web server TCP/IP port 26
- 3.4.7 Web User Interface Appearance 26
- 3.5 Network Device Discovery 26
 - 3.5.1 Running Discovery 27
- 3.6 Windows monitoring using WMI 29
 - 3.6.1 Overview 29
 - 3.6.2 Installing the Helix WMI Query Server. 30
 - 3.6.3 DGE Configuration for Proxy WMI Server. 34
 - 3.6.4 Provision WMI Hosts in Helix 35
 - 3.6.5 Troubleshooting. 35
- 3.7 Setting up Apache Monitor 36
 - Editing Helix Configuration* 37
- 3.8 Alphanumeric Paging 38
 - 3.8.1 Modem Configuration 38
 - 3.8.2 Paging Central Configuration 40
- 3.9 SSL Support on Web Application 42
- 3.10 Maintenance Tasks 44
 - 3.10.1 Database backup/restoration. 44
- 3.11 Operating Helix Behind Firewalls 46
 - 3.11.1 Requirements for Web Application 46
 - 3.11.2 Requirements for DGE (monitors). 47
- 3.12 Helix Operation in NAT Networks 48

- 4 Managing Users**
 - 4.1 End Users 49
 - 4.2 Admin User 49
 - 4.3 Managing End-Users 49
 - 4.3.1 To create a new user: 49
 - 4.3.2 To update a user: 51
 - 4.3.3 To delete a user: 52

- 5 Advanced Topics**
 - 5.1 Smart Notification 53
 - 5.2 Device Dependency 54
 - Dependency Restrictions* 55

5.3 External Help 56

Web Guide for End Users

6 Supported Monitors and Tests

- 6.1 Overview 61
- 6.2 Available Monitors 62
 - 6.2.1 Network Monitors 62
 - 6.2.2 Server Monitors 63
 - 6.2.3 Application Monitors 63
 - 6.2.4 Custom Monitors 66

7 Helix Web Interface

- 7.1 Logging In 67
 - 7.1.1 The Helix Web Interface 67

8 Real-time Status Monitoring

- 8.1 Introduction 69
 - 8.1.1 Helix Terms 69
- 8.2 Helix Status View 70
 - Test Timeouts* 72
 - 8.2.1 Device Status Summary View 73
 - 8.2.2 Test Summary View 75
 - 8.2.3 Test Details View 76
 - 8.2.4 Test Container Summary View 78
 - 8.2.5 Device Display Filters 78
 - 8.2.6 Device Comment Field 79
 - 8.2.7 Context-sensitive Help or Action 80
- 8.3 Event Logs 80

9 Manage Helix

- 9.1 Managing Devices 83
 - Auto-Update for Device Capacity Change* 87
- 9.2 Managing Standard Tests 88
 - 9.2.1 Before You Provision Tests 88
 - 9.2.2 Test Autodiscovery 88

- 9.2.3 Grouping Tests by Subtype 90
- 9.2.4 Configuring Test Schedules 96
- 9.3 Managing Advanced Tests 99
 - 9.3.1 Advanced SNMP Tests 99
 - 9.3.2 Advanced Port Tests 102
- 9.4 Suppressing Tests 103
- 9.5 Managing Test Containers (Virtual Devices). 105
- 9.6 Managing Action Profiles 107
- 9.7 Managing Account Preferences 112

10 Reports

- 10.1 Overview 115
 - 10.1.1 Technical Summary Report 115
 - 10.1.2 Fault Management Reports 116
 - 10.1.3 Performance and Capacity Planning Reports 117
 - 10.1.4 Custom Reports 117
- 10.2 Sample Reports 117
 - 10.2.1 Instability Report 118
 - 10.2.2 Test Performance Detail 119
 - 10.2.3 Trend Analysis Reports 120
 - 10.2.4 Event Correlation Report 120

Development Guide

11 Plugin Actions

- 11.1 Overview 125
- 11.2 Creating New Plugin Actions. 125

12 Plugin Monitors

- 12.1 Overview 129
- 12.2 Adding A New Test Type 129
- 12.3 Creating A New Plugin Script Monitor. 133
 - 12.3.1 Configuration File Format 133
 - 12.3.2 Writing The Plugin Script 136
 - 12.3.3 Provisioning Plugin Tests 136

- A Installing SNMP Agents**
 - A.1 Windows 2000/XP 139
 - A.2 Linux x86 140
 - A.3 Solaris Version 2.6 or Higher 140
 - A.4 Pre-compiled SNMP agents 141

- B Troubleshooting**
 - B.1 Overview 143
 - B.2 Log Files Used in Troubleshooting 144
